

K-LOVE is a wonderfully inspiring venue that gives all members of our community the positive encouragement we need to survive in today's hectic world. It's the BEST alternative to the mainstream radio stations that are out there - offering something for everyone - especially for our children. The services provided by KLove are unmatched by any other station. They teach good morals and values and teach about God in ways that everyone can relate. For many, this may be the only information relating to God that they receive. If even one person is inspired or changed by the message they hear, then it's all worth it. Please don't replace the FM translator service in our area with a LPFM. In today's society, it is important that we have family-friendly, value-oriented outlets to service the vast population of Christians and other individuals wanting to know about Christ.

Thank you.

A faithful listener of KLove on 88.9 and 106.7
